

How to add remove shows from library

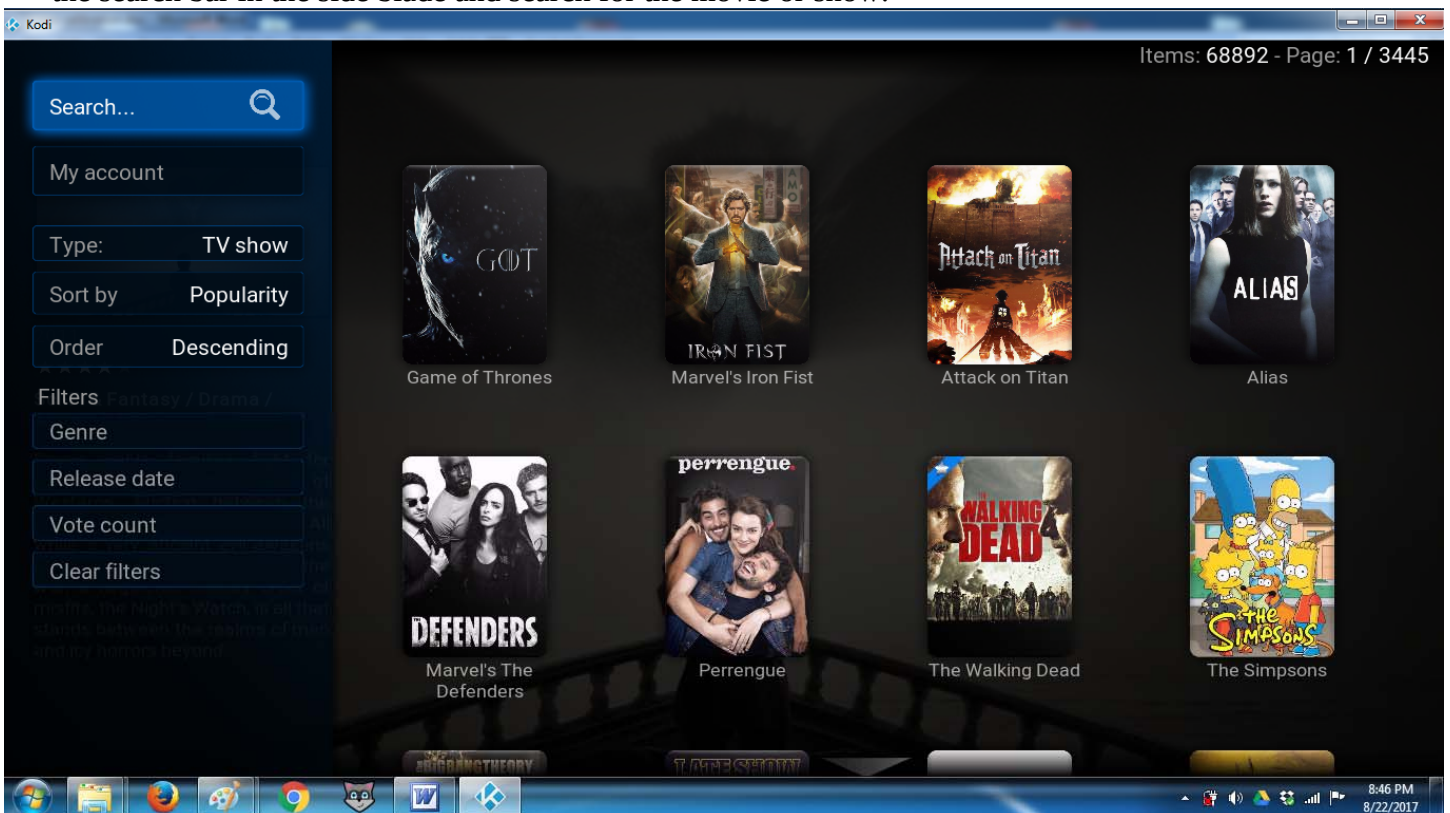

ADDING MOVIES or TV SHOWS

The easiest way to add a movie is by doing the following:

1. Click on the either MOVIES, TV SHOWS or the Black icon with the green Q in.

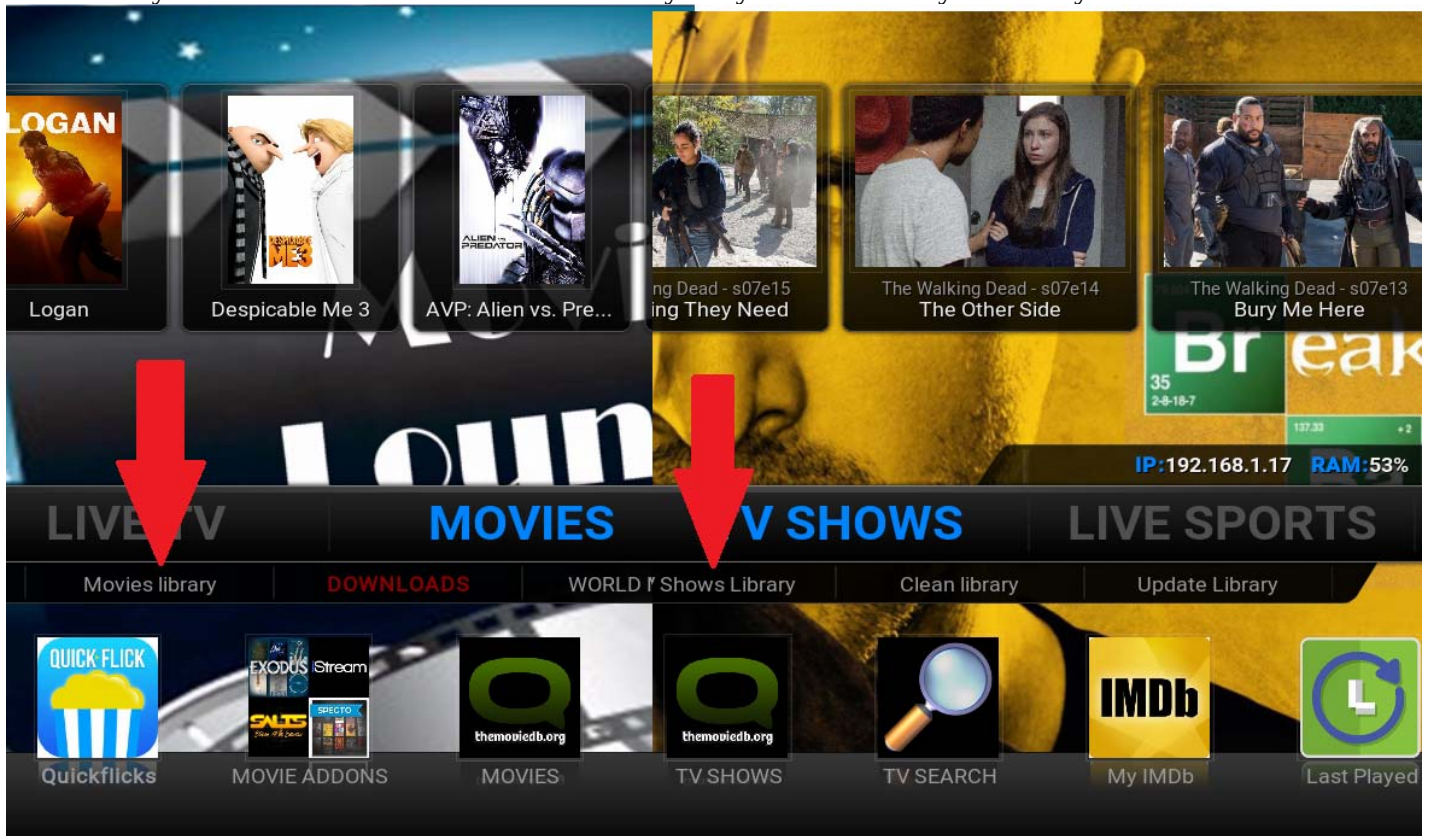

2. This screen will then come up. Either scroll down the list to find your movies or show or scroll left to bring up the search bar in the side blade and search for the movie or show.

3. Click on the Movie or Show to bring up the Information and click the add to Library Icon. This will auto scan the item to your library.

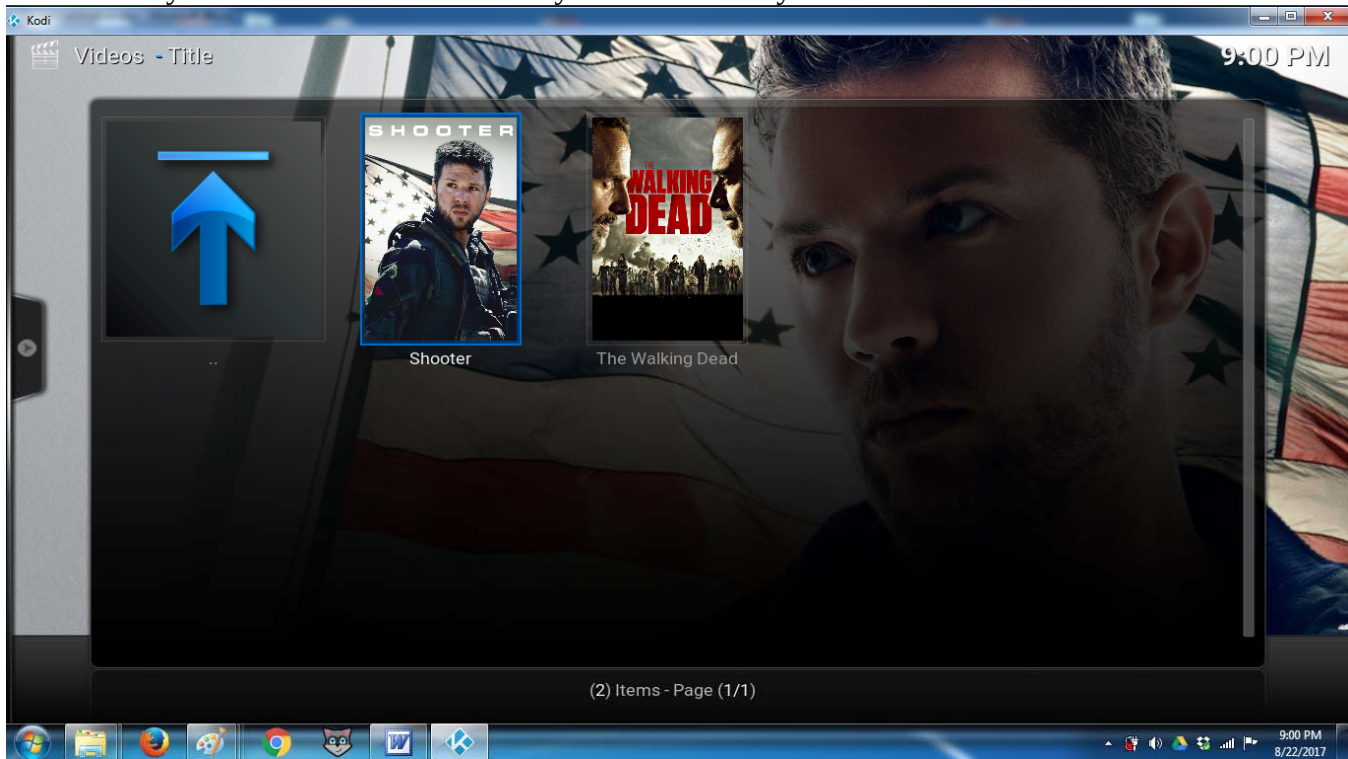

4. Now if you click the Movie or TV Shows library tab you will see all your library entries.

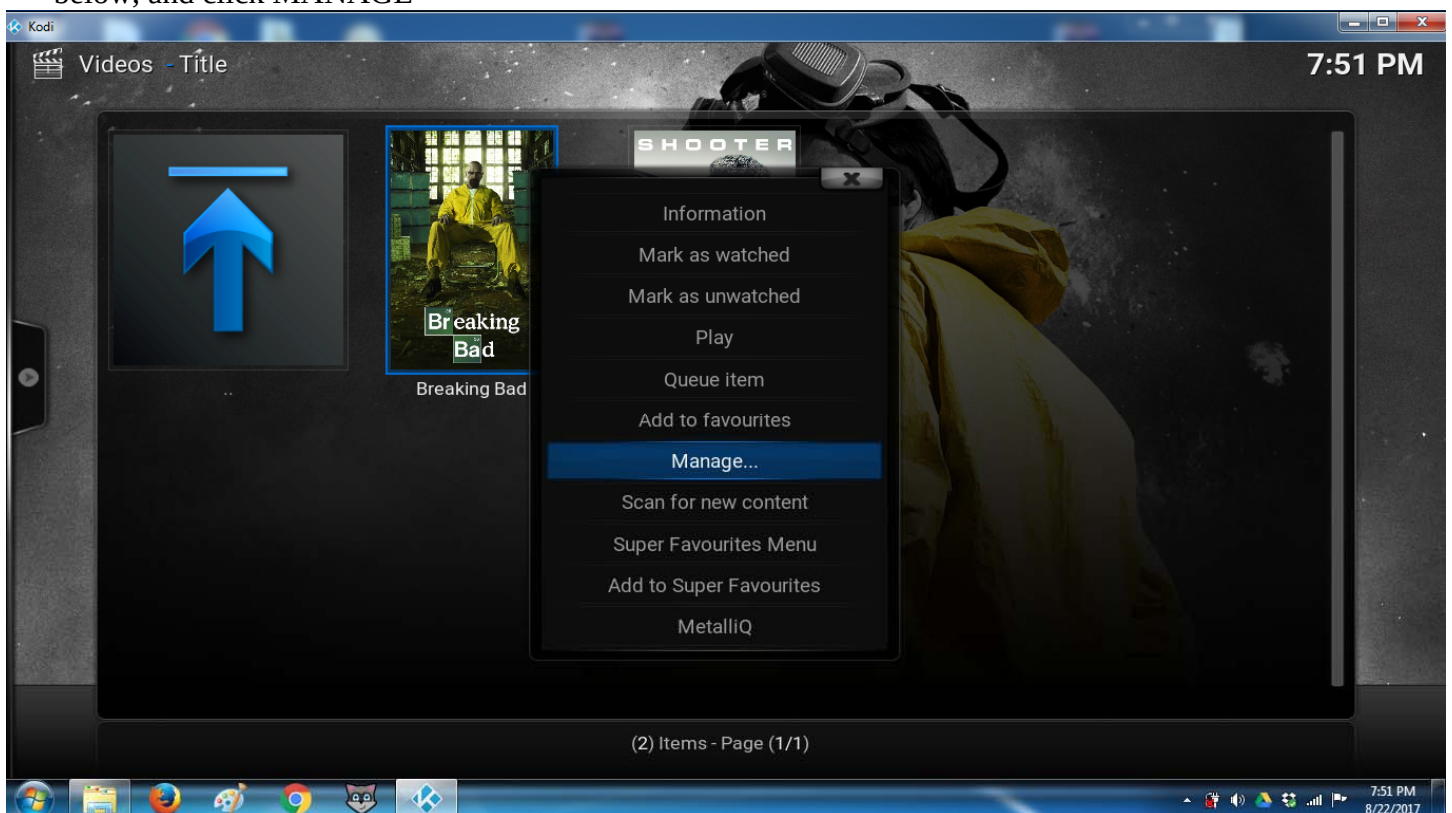

REMOVING MOVIES or TVSHOWS.

The easiest way to remove a movie is by doing the following:

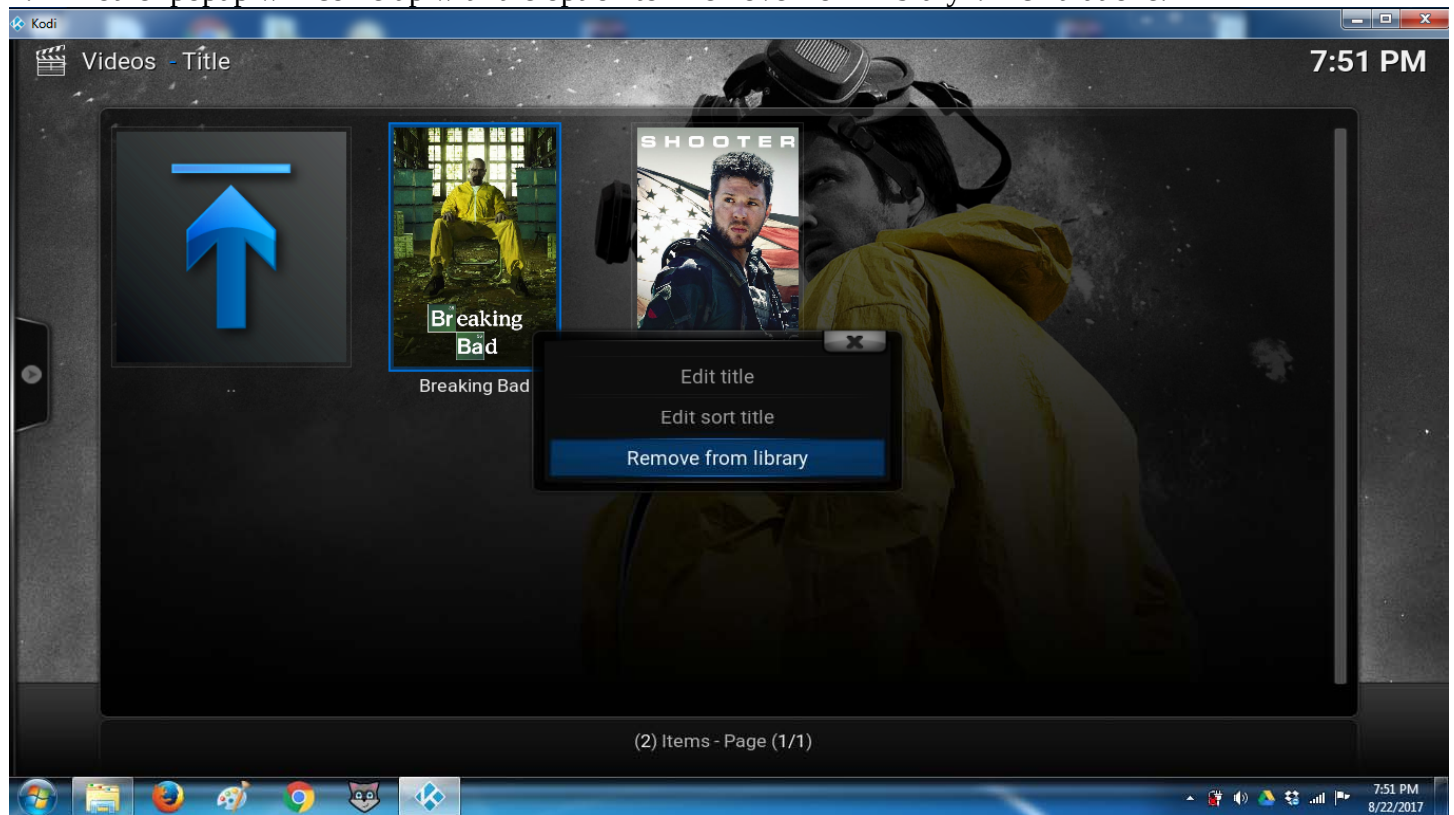

5. Get into your Movie or TV show library where the item you want to delete is located.

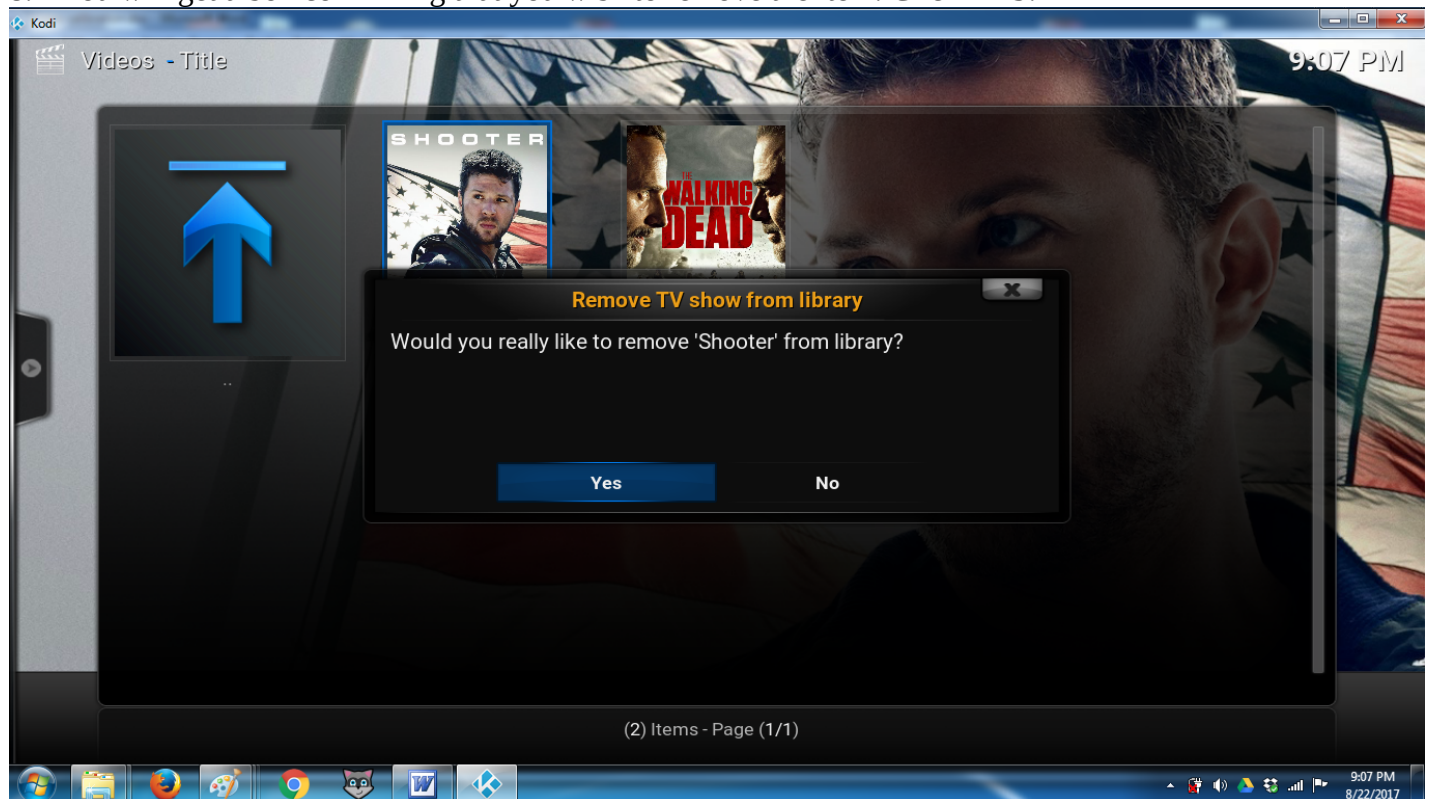

6. Move to the item you want to delete is and press the menu/context key (3 lines on remote) to bring up the menu below, and click MANAGE

7. Another popup will come up with the option to “Remove from Library”. Pick that one.

8. You will get a box confirming that you wish to remove the item. Click YES.

9. You will get a last box confirming that you wish to remove the items strm file. Click YES. You have now deleted the item from your library.
